SkillsFuture Enterprise Credit (SFEC) — SMF Advisory Note

Internal advisory note for SMF member-facing officers. Summarised from Enterprise Singapore's published scheme page. Not legal or financial advice; final determination rests with EnterpriseSG.

Overview

The SkillsFuture Enterprise Credit (SFEC) is a **one-off S$10,000 credit** given to qualifying employers to offset out-of-pocket costs of enterprise transformation and workforce transformation programmes. It is **not a standalone grant** — it sits *on top of* an existing supported scheme (e.g. PSG, EDG, MRA, a CCP, or an SFEC-eligible course) and offsets up to 90% of what the employer still has to pay after the base scheme's support.

CRITICAL TIMING CAVEAT — SFEC is winding down. EnterpriseSG's page states: *"Employers are required to submit the final claims to the respective agencies for the supportable programmes that they have successfully applied for or training courses that they have completed by second half of 2026."* Given today's date (26 July 2026), **SMF members with unused SFEC must be alerted immediately. TO VERIFY: the exact final claim deadline date within 2H 2026 — EnterpriseSG's page states only "by second half of 2026" without a specific date.** Officers should call the Enterprise Infoline to confirm the precise cut-off before advising a member.

What It Funds

SFEC offsets **up to 90% of out-of-pocket expenses**, on top of support from existing schemes. The credit is split into two buckets:

Enterprise Transformation — capped at S$7,000 of the S$10,000 credit. Only up to S$7,000 of the credit may be used for enterprise transformation, deliberately, "to encourage employers to embark on both enterprise and workforce transformation programmes." Supportable enterprise transformation programmes include EnterpriseSG grants such as PSG, EDG and MRA (each of those scheme pages carries the note that "employers eligible for the SkillsFuture Enterprise Credit can qualify for additional subsidies under the scheme").

Workforce Transformation — no cap on the SFEC amount used. Supportable programmes include:

- **Skills Framework-aligned courses** — offsets 90% of out-of-pocket course fees, with no cap on the SFEC amount usable for workforce transformation.
- Talent pipeline programmes.
- Workplace learning programmes.
- **Career Conversion Programmes (CCPs) are explicitly SFEC-supportable** — WSG's CCP page confirms this. See `grant_ccp_wsg.md`.

Eligibility

There is no application process. EnterpriseSG states: *"All eligible employers have been notified. There is no need to apply for SkillsFuture Enterprise Credit (SFEC)."* Qualifying employers received an eligibility letter to their registered Corppass administrator, and the S$10,000 credit is visible on the Business Grants Portal and the SkillsFuture for Business page.

Two qualification tranches were run:

SFEC (Budget 2020) — qualifying periods: 1 Apr 2019–31 Mar 2020; 1 Jul 2019–30 Jun 2020; 1 Oct 2019–30 Sep 2020; 1 Jan 2020–31 Dec 2020. Employers must, over any one qualifying period, have:

- contributed at least **S$750 Skills Development Levy (SDL)**; and
- employed at least **three Singapore Citizens or Permanent Residents every month**; and
- not already qualified in an earlier period.

SFEC Expansion (Budget 2022) — qualifying period: 1 Jan 2021–31 Dec 2021. Employers must have:

- employed at least **three Singapore Citizens or PRs every month** over the period; and
- not previously qualified for SFEC; and
- not be in default of SDL contributions during the period, and not have an inactive ACRA status during qualification.

Usage windows:

- Budget 2020 qualifiers may only use SFEC on supportable schemes **applied for from 1 April 2020**, or courses **commencing from 1 April 2020**.
- Budget 2022 (Expansion) qualifiers may only use SFEC on supportable schemes **applied for from 1 April 2022**, or courses **commencing from 1 April 2022**.

Because both qualifying windows closed years ago, **no new SMF member can become SFEC-eligible now.** The advisory task is purely to help already-eligible members spend the remaining balance before the claim deadline.

Funding Support

- **One-off credit of S$10,000 per qualifying employer.**
- Offsets **up to 90% of out-of-pocket expenses** remaining after base scheme support.
- **Maximum S$7,000** usable on enterprise transformation.
- **No sub-cap** on workforce transformation usage (within the S$10,000 total).

How to Apply / How to Claim

There is no SFEC application. To use and claim the credit:

1. Identify an SFEC-supportable programme that addresses the business need. Officers can point members to the GoBusiness e-Adviser, or to a Business Advisor at an SME Centre (SMF operates **SME Centre@SMF** — see `smf_services_overview.md`).
2. Apply for and complete the **base programme** (e.g. PSG, EDG, a CCP, or an SFEC-eligible course).
3. **Submit the final claim for the base programme to the relevant agency** by the 2H 2026 deadline. For SFEC-eligible courses, claims may need to be submitted on the SkillsFuture for Business page.
4. **There is no separate SFEC claim submission.** Once the base programme claim is approved, the corresponding credit is calculated automatically.
5. **Automatic disbursement** on a **quarterly basis** to the employer's **IRAS-registered GIRO or PayNow Corporate account**. Bank credits carry the prefix "SFEC" (PayNow) or "SkillsFuture Enterprise Credit" (GIRO). Corppass administrators are notified by email.
6. SFEC disbursements are made **separately** from the base programme's disbursement.

Common Pitfalls

- **Assuming SFEC can be applied for.** It cannot; eligibility was determined automatically for closed historical periods.
- **Missing the 2H 2026 final claim deadline.** This is the single biggest risk in 2026. The credit is forfeited if the *base programme claim* is not submitted in time — the base project must therefore already be complete.
- **Assuming the whole S$10,000 can go to a PSG or EDG project.** Only S$7,000 may be used for enterprise transformation.
- **No GIRO/PayNow set up with IRAS.** Without an IRAS-registered GIRO or PayNow Corporate account, the credit cannot be disbursed.
- **Confusing SFEC with the SkillsFuture Credit for individuals** (which is a personal, not employer, credit) or with the SkillsFuture Workforce Development Grant. They are different instruments.

- **Expecting SFEC to arrive with the base grant.** It arrives separately and quarterly, which causes reconciliation confusion in members' accounts.
