Career Conversion Programme (CCP) and WSG Support — SMF Advisory Note

Internal advisory note for SMF member-facing officers. Summarised from Workforce Singapore's published pages. Not legal or financial advice; final determination rests with WSG.

> ***ACCURACY WARNING FOR THIS NOTE.*** *Several of the most commonly asked figures — the base salary support percentage, the monthly dollar cap, and the number of months of support — are published by WSG only in downloadable* ***CCP Factsheet and CCP FAQ PDFs*** *that could not be retrieved during this compilation. They are marked* ***TO VERIFY*** *below.* ***Do not quote a base rate or monthly cap to a member from memory.*** *WSG has revised these figures more than once.*

Overview

Career Conversion Programmes (CCPs) are Workforce Singapore's principal reskilling instrument for employers. WSG describes them as helping employers *"broaden their talent pool or transform their workforce by reskilling mid-career new hires or existing employees into growth job roles with good longer-term prospects, with up to 90% salary support."*

WSG states there are **close to 100 CCPs across around 30 sectors**. For SMF members, CCPs are the main way to bring in a mid-career hire for a role the member cannot fill from the open market — e.g. an automation technician, a data analyst on the shop floor, or a supply chain planner — or to reskill an existing operator into a redesigned role.

What It Funds

CCP provides **salary support** to the employer during the conversion/reskilling period. Three delivery modes:

1. **Place-and-Train** — the company hires a jobseeker and puts the individual through on-the-job training (OJT).
2. **Attach-and-Train** — the company acts as a **host employer**, providing training and work attachments to jobseekers ahead of hiring.
3. **Job Redesign (JR) Reskilling** — the company sends an **existing employee** for reskilling to take on a new or redesigned job role aligned with a **Jobs Transformation Map (JTM)**.

Course fee funding: TO VERIFY — WSG's CCP employer and individual pages describe salary support only and do not mention course-fee funding.

Eligibility

Employers (Place-and-Train / JR Reskilling):

- Registered or incorporated in Singapore.
- Must offer an employment contract **on permanent terms, or on contract terms of no less than one (1) year**, directly related to the CCP job role, with remuneration commensurate with the market rate.
- Commit to the CCP training arrangements.
- Work with WSG or its appointed partner(s) on administrative matters.
- **With effect from 1 April 2025**, companies on Place-and-Train / JR Reskilling CCPs may offer **either full-time or flexi-load working arrangements (e.g. part-time employment)** and still qualify for CCP support.

Employers (Attach-and-Train): must offer **full-time** attachment positions directly relevant to the identified Attach-and-Train CCP job occupations.

Individuals:

- **Singapore Citizen or Permanent Resident.**
- **Minimum 21 years old.** (There is **no upper age limit** stated.)

- Graduated, or completed National Service, **for at least two (2) years** — counted from the date of graduation from the latest qualification or NS completion, whichever is later.
- **New Hire track:** the new job role trained for must be **substantially different** from the individual's previous role before joining the CCP.
- **Existing Employee track:** the new job role must be a **growth job identified under a Jobs Transformation Map (JTM)**.
- **Exception:** individuals with a **continuous employment gap of at least two (2) years** before programme commencement may apply for CCP roles **similar** to their previous jobs.
- **Exclusions:** individuals must not be shareholders, immediate ex-employees of the company or related entities, or related to shareholders of the hiring company.

Individual CCPs may carry **additional course-specific entry requirements**, and employers may run their own shortlisting process.

Funding Support

- **Headline: up to 90% salary support.**
- WSG states: *"Long-term unemployed or mature jobseekers aged 40 and above are eligible for higher salary support of 90%."*
- **Base / standard salary support percentage for non-mature, non-long-term-unemployed candidates: TO VERIFY — not stated on WSG's public CCP pages.**
- **Monthly dollar cap on salary support: TO VERIFY — not stated on WSG's public CCP pages.**
- **Duration of support (number of months): TO VERIFY — not stated on WSG's public CCP pages.**
- **Definition of "long-term unemployed": TO VERIFY — not stated on WSG's public CCP pages.**
- **Whether rates differ between Place-and-Train, Attach-and-Train and JR Reskilling: TO VERIFY.**

Stacking with SFEC is explicitly permitted. WSG states: *"CCPs are currently supportable programmes under the SkillsFuture Enterprise Credit (SFEC). Your company may be eligible to qualify for additional subsidies if the qualifying criteria is met."* Note SFEC's 2H 2026 final claim deadline (see `grant_sfec.md`).

How to Apply

- Employers apply via WSG's **CCP Portal** through a **Corppass-authenticated** government portal. WSG's page splits the "How to Apply" steps between "For Employers" and "For Programme Partners holding the Processing Officer and Access Manager Role". **TO VERIFY: the exact CCP Portal URL — the link could not be resolved during this compilation.**
- Individual jobseekers browse and apply for CCP roles via **MyCareersFuture** (https://www.mycareersfuture.gov.sg/), which lists "Career Conversion Programme, CCP" among its search categories.
- WSG publishes a **CCP Application Management Guide** (PDF, linked from the individuals page) — **TO VERIFY: direct URL.**
- **NTUC's e2i runs a separate set of CCPs** with its own application route.
- Many CCPs are delivered through **Programme Partners** (industry associations, training providers). Whether **SMF or SMF CCL is an appointed CCP Programme Partner: TO VERIFY.** SMF CCL states on its own site that it *"works closely with WSG and is appointed as the Program Manager for various Government Grants initiated by the statutory board"*, and its enquiry form includes a "Government Grants — Career Conversion Programmes" category — strongly suggestive but not a confirmation of a specific manufacturing CCP.

Related WSG / SkillsFuture Support Relevant to Manufacturing Members

- **SkillsFuture Workforce Development Grant (WDG) — Job Redesign+ (JR+).** SMF CCL publishes support caps for this on its own site: **Workforce Consultancy up to S$50,000; Capability Building Initiatives up to S$60,000; HR Tech Solutions up to S$90,000** (HR Tech must be combined with at least one other component). Consultancy scope includes assessing business needs, **AI readiness**, developing workforce

strategies and redesigning job roles. Source: https://smfccl.sg/workforce-development-grant-job-redesign/ (page published 3 Jun 2026, last modified 25 Jun 2026). **TO VERIFY these caps against the official SkillsFuture Singapore WDG page — they are quoted here from a Programme Partner's site, not from the administering agency.**

- **Support for Job Redesign under the Productivity Solutions Grant (PSG-JR). TO VERIFY — could not be located on any official WSG page during this compilation. Its current status (live, closed, or superseded) is unknown.** Note that "Job Redesign (JR) Reskilling" now appears as mode 3 of CCP itself; do not conflate the two without confirming.

Common Pitfalls

- **Offering a contract shorter than 12 months.** Disqualifies the employer.
- **Hiring a relative or a former employee into the CCP role.** Explicitly excluded.
- **The new role not being "substantially different"** for a new hire — WSG assesses this, and a lateral hire dressed up as a conversion will be rejected.
- **Quoting the 90% rate to every member.** 90% is the *enhanced* rate for long-term unemployed or mature (40+) candidates. The base rate is lower and is currently unverified.
- **Assuming an existing employee can be reskilled into any role.** For the Existing Employee track the target role must be a growth job under a **Jobs Transformation Map**.
- **Assuming a blanket "no concurrent funding" rule.** SFEC stacking is explicitly allowed, so do not tell members that CCP cannot be combined with anything. **TO VERIFY: whether any other concurrent-funding restrictions apply.**
- **Retention / clawback obligations: TO VERIFY — not stated on WSG's public pages.** Advise members to read the Letter of Offer terms carefully.
